## Who Are We?

The Patchogue Garden Club was founded in November of 1996 by a group of enthusiastic Patchogue gardeners who wished to use their love of gardening in service to their community.

From the club's inception, a two-fold mission was established: community education and beautification.

In pursuit of our educational goal, we have regularly scheduled presentations by knowledgeable and experienced gardeners and educators.

As part of our community beautification efforts, the Patchogue Garden Club maintains the Community Garden on the corner of South Ocean Avenue and Terry Street. This once abandoned unsightly lot has been transformed into an urban oasis with several gardens and a gazebo.

We welcome your membership and support.
